

You are encouraged to attend one of the educational meetings the National Cotton Council has scheduled to provide its members with in-depth information regarding insurance options for cotton under The Agricultural Act of 2014. The meetings will provide an in-depth look at the new Stacked Income Protection Plan (STAX) and the Supplemental Coverage Option. Coverage levels, expected yields and premium rates will be covered in detail in order to better equip producers with the information necessary to evaluate the insurance options for 2015. The meetings also will include an update on overall farm bill implementation and a question/answer session.
